PRESIDENT'S MESSAGE

Girls' education is important for a better future

Girls are the architects of change, and their dreams have the power to transform societies." "A girl with a dream can change the Country. Let's support and uplift every girl's aspiration." "The strength of a nation lies in the education and empowerment of its girls.

Women have always been the suppressed ones and the males have always been the oppressor ones. To remove this stigma of the society the theory of "EQUALITY" should be promoted. Girls have been denied many opportunities to move ahead and all those missed chances from which they can make something of themselves in their life. But due to lack of education women could not get equal to men.

Education was always off-limits for girls and still continues to be in many rural areas and urban slums. Education has become a commodity in the community that can only be achieved by the lucky. Education contributes greatly to the betterment of society. An educated person can make educated decisions that will benefit all. Yet half of the people who unite society, are girls deprived of education.

It was believed that the girls should be ordained for marriage and later take care of the family. For so many years the monarchy prevented women from having their own personalities. Even in rural areas of our country, the practice of banning girls' education is still widespread. People do not realize that an illiterate mother and daughter are just a line in the family and in the community. An educated woman has a lot of knowledge about good health care and the ability to care for her children better, at the same time raising educated children. When a girl child is educated, almost half the population is literate, thus reducing the illiteracy that seems to be rampant in our country.

When these educated women create jobs, it also contributes to the growth of the social economy and reduces child marriage cases. Being financially independent, they can take better care of their families and end poverty. Families will no longer view the birth of a baby girl as a burden that reduces infant mortality. Education helps us to grow and develop ourselves through personal growth and skills. It is one of the basic rights of all people to equal access to education and education in all its forms. Men and women are equally important in this society; none of them should be overlooked for the betterment of the country.

However, we still face issues such as inequality, gender-based decisions when it comes to girls' education. However, few people in our community think that girls are born to do only the housework. They are indeed the future of our nation. Moreover, once they are educated, they will not need to rely on others for their livelihood. In addition, educated women can better care for their children. We must all be open and support girls' education as educated women will be a better asset not only for our country but

also for our family. It's time to educate every woman. And this can be done by promoting workshops for parents and communities that explain the benefits of education.

Girls' education helps in the betterment of society as education will help to learn etiquettes, ethics and manners which will directly help in creating a better environment. By attaining education, girls will be able to understand what's right and wrong plus they will also know some measures to protect themselves in any type of situation. Girls' education will make them more independent and financially strong and less dependent on their family or husband. Girl Education will help them to understand the importance of hygiene. Girls' education will help to break the stereotypes of the society of child marriage, dowry incidents etc. Education will empower women and will help them to fight indiscriminate. By attending education, girls can also support their families and can remove the tag of baggage from their heads.

In short, Girl's education is important for a better future. When a girl child is educated, nearly half the population is educated, thus reducing illiteracy that seems to be quite high in our country. When these educated women build careers, it also adds to the socio-economic growth and decreases the cases of child marriages. As they become financially independent, they can take better care of their families eradicating poverty.

On the occasion of National Girl Child Day on 24th January, it was also celebrated to spread awareness about the rights of the girl child. Several government campaigns and programs are in line with the day including Beti Bachao Beti Padhao, Save the Girl Child, Women Helpline Scheme, Ujjwala etc. The day spread awareness about the inequalities that girls face in the society of India due to gender bias. The day was also marked with several awareness campaigns related to the child-sex ratio, and the creation of a healthy and safe environment for girls.

We are also creating awareness among the target families through our programs on importance of girl child education and encouraging the target families to support and spend their earned incomes for their girl child education. Lodi MSSS is creating awareness to the target families on girl child education through implementing Food Security, Ecological farming, Natural resource management, livelihoods programs, Child line programs, HIV infected and affected Children & Physically Disabled children's programs in our working areas. Lodi MSSS assures that we will work to empower girls for a brighter tomorrow. Without her, there is no tomorrow. A girl child brings joy, she is no less than a boy. We support one and all for her bright future.

Most Rev. Dr. Udumala Bala

President of LMSSS & Bishop of Warangal

DIRECTOR'S MESSAGE

I herewith extend my warm wishes to all of you and present the Annual Report of LODIMSSS activities to the General body members for the year 2023-24. We have been implementing the programs with the support of our donors, supporters and target beneficiaries. This year we have taken up various programs for the eradication of poverty among poor, marginalised and needy people.

This year we have achieved two new projects 1. Sustainable agriculture - based Food Security and Livelihood for 4000 tribal, dalit & backward communities in Chennaraopet Mandal of Warangal District. 2. Sustainable Safe & Clean Water - SPED - VII - safe drinking water program. We have also implemented Food Security, Organic farming, Natural resource management, climate adaptive agriculture and livelihoods, education and nutrition support to children affected by HIV/AIDS, Physically Disabled children, Child line programs, women empowerment, promotion of milk animals, safe drinking water, housing and sanitation programs. With these programs we have improved the living, social, health, nutrition and economic conditions and reduced the poverty of our target beneficiaries.

For this financial year of 2024-25, the special focus of LMSSS will be on Poverty reduction among the Poor and Marginalised rural households with Livelihoods, Ecological farming and Natural Resource Management and food security programs, adaptive agriculture and Safe drinking water and Sanitation programs, education and nutrition support to HIV/AIDS children programs.

Finally, I take this opportunity to thank His Excellency Most Rev. Dr. Udumala Bala, President of Lodi MSSS, Warangal for the support in rendering the services for the development of poor and marginalised. I thank all the General and Executive body members, staff, donors for all the kind support and cooperation in implementing the programs through Lodi MSSS. I am grateful to you all and assure you all that Lodi MSSS will continue to work and support to reach the unreached poor and marginalized.

May the Almighty God bless us all

Fr.S.Inna Reddy

Director, LMSSS

PROGRAMS IMPLEMENTED

1. Poverty Reduction and Food Security for Disadvantaged Rural Households in the Jangaon District through Organic Farming and Animal Husbandry in Kodakandla mandal, Jangaon district

Overall objective (Impact):

The living conditions of marginalised and poor rural families in the Jangaon District are improved

Project purpose (Outcome):

Marginalised and poor families in 16 project villages achieve higher income and improve their food security through community village administration, active resource conservation management, ecological farming and keeping livestock.

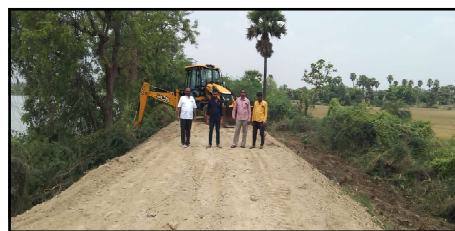

Output

- 1) Self-help structures are established and function independently and participatively
- 2) the size of the irrigated and cultivated areas has increased due to water and erosion control measures
- 3) Marginalised and disadvantaged small farmers practice ecological and diversified agriculture
- 4) Marginalised and disadvantaged women practice sustainable ways of keeping livestock.

Villages/Location : 16 project villages of Kodakandla mandal, Jangaon district

Activities Implemented

- 1) Training on mixed vegetable cropping
- 2) Training on ecological farming methods
- 3) Mandal development committee meeting
- 4) Linkage meeting
- 5) Exposure program to farmers
- 6) Promotion of ecological farming
- 7) Promotion of Vegetable seeds
- 8) Promotion of fodder seed
- 9) Promotion of traditional seed
- 10) Desiltation of big irrigation tanks
- 11) Construction of Stone gully plugs in fields
- 12) Construction of Check dams
- 13) Construction of Weir on existing small ponds
- 14) Renovation of existing small ponds
- 15) Renovation of feeder channels to existing irrigation tanks

Output Results achieved

1. Trained 105 farmers on mixed vegetable cropping systems in agriculture fields to enhance income and vegetable consumption
2. 20 farmers were trained on ecological farming methods, waste decomposer bacteria, Jeevamrutham, Ghana Jeevamarutham methods and homeo medicines to improve the soil fertility and soil nutrients, control of pest etc.
3. 30 Mandal development committee members with the project staff have attended the meetings and planned reviewed and monitored the implementation and follow up, maintenance of the activities at the project level
4. 50 farmers participated in linkage meeting and mandal agriculture officer attended meeting and shared and discussed on agriculture issues, schemes, crop diseases and pest management.
5. 20 Farmers were taken for exposure to cholleru village, Bhongiri district - Cholleru FPO and learnt about redgram processing unit, agriculture input services provided to farmers through the FPO.
6. 150 farmers were provided with spray pumps, neem oil, growth promoter, solar light traps, neem powder, yellow plates to promote natural farming waste decomposer bacteria, Jeevamrutham methods and to improve the soil fertility and soil nutrients.
7. Distributed to 150 farmers 10 varieties of vegetable seeds to enhance income and vegetable consumption
8. 150 farmers were provided with tarpaulin sheets, shady net, stacking wire, to promote mixed vegetable gardens and to enhance income and vegetable consumption
9. Distributed fodder seeds to 80 members to grow fodder for milk animals and enhance milk yield
10. Distributed to 78 farmers traditional crop seeds to enhance income with less investment.
11. 4220 tractor trips of tank silt from 2 irrigation tanks, in 2 project villages was applied in 210 acres of agriculture land of 105 small and marginal farmers with desiltation program.
12. Constructed 900 stone gullies in farmers' agricultural lands in 225 acres of 225 farmers in 6 project villages to control the soil erosion and increase the soil moisture retention capacity.
13. Constructed 4 check dams in 4 villages on big stream and 105 farmers will be benefited with recharge of ground water and enhanced irrigation from bore wells and wells.
14. Constructed 1 weir on 1 small pond in 1 project village to increase storage capacity and 30 farmers will be benefitted with enhanced irrigation from bore wells and wells.
15. Renovated 8 small ponds in 8 project village are renovated by clearance of jungle on the bund and strengthened the bund and 250 farmers were benefitted with the increase of irrigation sources.
16. Renovated 6 Feeder channels in 5 project villages and 155 farmers were benefitted with increase of irrigation and recharge of bore wells.

2. Sustainable Livelihood Based Food Security program for the Tribal and Dalit Communities of 16 villages of Tharigoppula Mandal of Jangaon district.

1) **Objective:** Food security is enhanced among 1250 families in 16 project villages (5 panchayat villages and 11 habitation villages) of Tharigoppula mandal, Jangaon district and will experience access to sustainable livelihood options for year-round food security.

2) Activities Implemented:

- a. Farmers training on organic farming, IPM/NPM methods, Vermi compost.
- b. Farmers training on soil moisture conservation & water harvesting structures and water management
- c. Farmers training on Promotion of multi cropping and traditional crops and vegetable gardens
- d. Training on livelihood, fodder development and veterinary care
- e. Linkages meeting for the benefit of women and farmers with government departments and Panchayat Raj institutions on Government schemes
- f. Promotion of organic agriculture
- g. Promotion of traditional seed
- h. Distribution of Vegetable seeds for Kitchen Garden and Vegetable garden
- i. Promotion Fodder Development
- j. Promotion of Backyard poultry
- k. Construction of Vermi Compost Pits
- l. Construction of Check dams
- m. Deepening of the 30 Irrigation open wells
- n. Desiltation of 2 irrigation tanks

3) Achievements in this reporting period:

- 183 Marginalized farmers gained knowledge on organic farming, IPM/NPM methods, Vermi compost.
- 159 Farmers gained knowledge on soil moisture conservation & water harvesting structures and water management
- 167 Farmers gained knowledge on Promotion of multi cropping and traditional crops and vegetable gardens
- 176 Marginalized farmers gained knowledge on livelihood, fodder, veterinary care
- 172 Village committee members when trained on linkage meeting on government schemes
- 184 Marginalized farmers received Yellow plates, Neem oil & Pheromone traps and were practicing organic methods in 47 acres of land in 16 project villages
- 234 Farmers received traditional food crop seeds and cultivated in 116 acres of land in 16 project villages

- 624 Women and farmers have received 5 varieties of vegetable seeds for kitchen garden and vegetable garden and farmers cultivated in 98 acres of land.
- 161 farmers have received Fodder seeds cultivated in 81 acres of land for animal development and increased the quantity of milk in 16 project villages.
- 440 Women members received backyard poultry units from 16 villages and with selling of eggs, chicken enhanced their income and improved nutrients in their daily food.
- Constructed 480 Vermi pits units for 480 farmers from 16 villages and prepared and applied the vermi compost in 208 acres of land and got good yield.
- We had constructed 2 check dams in 2 villages and with these 19 open wells and 27 bore wells were recharged and 48 farmers improved irrigation to 38 acres of land.
- 30 Open wells were deepened and 30 Farmers were benefited through deepening open wells and enhanced irrigation for 27 acres of paddy fields.
- 6,002 tractor trips of desiltation was taken in 2 irrigation tanks in 2 villages and applied in 341 acres of 167 farmers to improve soil moisture conservation and moisture retention, soil fertility of agriculture land.

3. Improvement of income situation and Food security for marginalized groups in 20 project villages of Raikal mandal, Jagityal District

1) Project Goal:

4,050 poor households from 20 villages in the Jagityal District improve their food and income situation

Specific objective:

1. 1. A total of 3,065 households of small farmers and marginalized farmers as well as 985 landless households have established production-enhancing agricultural techniques and income-generating measures.
2. A total of 4,050 families living below the poverty line improve their participation in local politics through participation in self-help groups and thus participate in change processes
3. The partner organization Lodi has built up institutional and technical capacities to better support the target group
4. The improved lobbying ensures the necessary structural integration and support of the project at district and state level

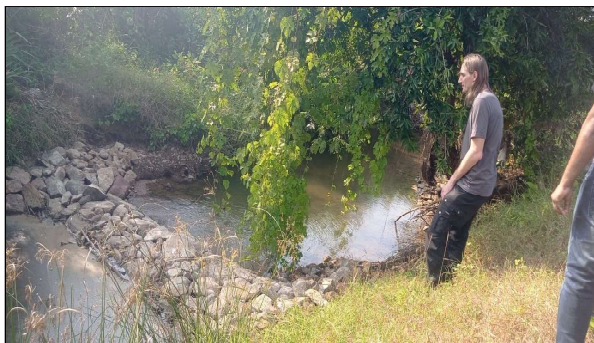

2) Activities Implemented :

- 1) Mandal Development Committee Meeting
- 2) Linkage meeting
- 3) Promotion of Natural farming/organic Farming
- 4) Promotion of organic kitchen garden.
- 5) Construction of Vermi pit units
- 6) Renovation of feeder channels
- 7) Renovation of Irrigation pond
- 8) Desiltation of irrigation tanks.

3) Achievements :

- 40 Members of Mandal Development Committee were trained on project goals and objectives and increased their involvement in the project implementation.
- 100 small and marginalized farmers were trained in linkage meetings on agriculture/horticulture schemes of Telangana state.
- Distributed Organic inputs like Neem oil, Pheromone Traps, Yellow sticks to 112 farmers in 20 project villages.
- Distributed 6 varieties of vegetable seeds for kitchen gardens to 100 families and increased additional income and vegetable consumption in 20 project villages.
- 56 Vermi pits were constructed in 8 villages and 56 farmers prepared vermi compost and used in crops and reduced investment on chemical fertilisers.

- 5-Existing Irrigation ponds were repaired in 5 villages and 175 small farmers were benefitted and increased 35 acres of dry land brought into cultivation.
- 8-Renovation of feeder channels in 8 villages and 200 farmers were benefitted and 216 acres of land irrigation enhanced.
- 1 Desiltation of irrigation tank in 1 village and 64 farmers were benefitted and 94 acres of land fertility is enhanced.

4. Sustainable agriculture based Food Security and Livelihood for tribal, dalit & backward communities in Chennaraopet Mandal of Warangal District

1) Project Goal: Enhancement of Sustainable agriculture Food Security programs and sustainable livelihood for marginalized farmers & landless families for 4000 target families who belong to SC ST and backward communities in 20 selected villages of Chennaraopet mandal of Warangal district in Telangana state, India.

2) Project Objectives:

Objective 1: To create a platform through formation & strengthening of village committees and capacitating on agriculture, Natural resource management & livelihood based food security through increased agricultural production and natural resource structures.

Objective 2: To build the capacities of marginalized farmers on improving organic agricultural productivity through sustainability agriculture practices and promotion of organic agriculture and food crops.

Objective 3: To improve knowledge on natural resource management structures and capacitating the leaders and farmers on SGPs, Feeder channels & Irrigation ponds and its maintenance for increase of agriculture production.

Objective 4: To improve the knowledge and awareness levels among the target communities on sustainable livelihood support to increase the family income and increase health & nutrition support through kitchen garden & organic vegetable plots.

Objective 5: To improve women and farmers capacities on linkages for village development process and avail the welfare schemes by government.

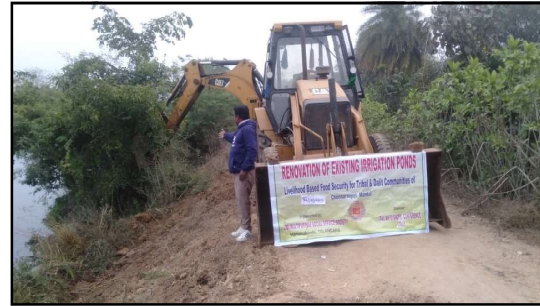

3) Key activities:

- i) Village meeting and Village committee formation
- ii) Farmers training on organic NPM/IPM and soil moisture
- iii) Renovation of irrigation ponds
- iv) Renovation of feeder channels
- v) Promotion of Kitchen garden

4) Major achievements of reporting period:

- We have organized 20 village level meetings and formed 20 village committees with 200 farmers, women, village leaders, PRI members and youth members in 20 villages.
- 200 farmers gained knowledge on water management methods and natural resource management methods
- We have organized village level meeting for 280 farmers, women and village leaders on water management methods and natural resource management methods.

- 6 Irrigation ponds were renovated in 6 villages and 580 acres of land and 450 small farmers are benefitted in Chennaraopet mandal.
- 10 Feeder channels were renovated in 10 villages and 940 acres of land and 820 farmers are benefitted in Chennaraopet mandal.

5. Empowered communities' foster climate resilient and climate adaptive agriculture and livelihoods at Mahabubabad mandal & District - UJWALA PHASE II

1) Over all Objectives:

- a. Food and Livelihood Security is expanded through promoting Climate Resilient Agriculture and Livelihoods.
- b. Farmers' Producer organizations are making use of the possibilities for participation and greater involvement.

2) Activities implemented:

1. Meeting with Community institutions on Local resource identification & Management
2. Orientation meeting with community leaders
3. Awareness meeting on Allied Off farm Activities
4. Awareness meeting on Post harvest technologies
5. Exchange meetings of farmers group leaders (for sharing farming knowledge)
6. Organise Dialogue with duty bearers
7. Net working with Marketing agencies
8. Promotion of Seed, Agri. Inputs Banks and Nonfarm support
9. Promotion of appropriate Agronomic practices
10. Awareness meeting on Integrated Organic Family Farming
11. Training for Anganwadi / Asha / community workers on the importance of safe food practices & Sustainable Agriculture
12. Awareness meeting on Allied Off farm Activities
13. Skill Development training for low income group
14. Setting up of Nutrition Garden in Anganwadi & Govt. Schools
15. Millet Popularization Drive
16. Exposure visit
17. Setting up for Integrated Nutrition gardening for widows/PLWD
18. Setting up community nurseries for re-greening with nutritionally important trees.
19. Capacity Building training to volunteers
20. Orientation Meeting with Volunteers on Sustainable Livelihood.

3) Results achieved:

- 155 Community members participated in this program.
- 195 selected community members gained knowledge on identify community issues in local level, and possible coping strategies.
- 207 selected Community people gained knowledge on off farm activities.
- 271 farmers gained knowledge on to prevent losses after harvesting and value additions.
- 30 farmers participated and shared their own experience on cultivation and best practices.

- 178 farmers participated in Linkage meeting with agriculture department and KVK.
- 155 farmers gained knowledge on to marketing with concern agencies through this meeting.
- 647 villagers were provided with vegetable seeds through this program.
- 192 Farmers gained knowledge on Agronomic practices in field level for demonstrative learning's in the target villages.
- 218 Community people gained knowledge on Integrated Organic Farming, Horticulture, traditional best practices.
- 193 Community members. Asha and Anganwadi teachers participated in the meeting.
- 207 Community members and farmers gained knowledge on off farm activities.
- 70 Selected SHG members were trained on skill based IGP program.
- 4 Nutrition Gardens were established in Govt.Primary schools and Anganwadi centers.
- 66 Farmers gained knowledge on millet cultivation benefited millets seeds through this program.
- 10 Selected farmers visited field of organic farming through exposure visit.
- 150 widow and PLWD's were provided vegetable seeds and fruit plants through this program.
- 3 community nurseries for re-greening with nutritional plants.
- 40 selected volunteers gained knowledge on organic farming methods, and their role and responsibilities in village developmental activities.
- 60 volunteers were sensitized on sustainable livelihoods.

6. Sneha Hastham Cancer campaign project

a) **Goal:** Sensitization and mobilization of the community resources on prevention of cancer and create awareness in the community through campaigns and to involve the various stakeholders to plan and action.

b) Specific Objectives:

1. To make community involve in the role of bio-behavioural interventions, communications, and outcomes in reducing incidence of cancer.

- 3) Awareness program to Asha workers on Cancer Care campaign.
- 4) Training to Volunteers on Cancer Care campaign.
- 5) Cancer screening camp.
- 6) Innovation / Good practices for the benefit of the community with Cancer survivors/ Families / Dependents.

d) Results achieved:

- I. 12 Cancer Patients were provided Nutrition support.
- II. 200 women group members gained knowledge on cancer prevention.
- III. 60 Asha workers gained knowledge on cancer prevention.
- IV. 40 Youth and Asha workers volunteers gained knowledge on cancer prevention.
- V. 132 villagers participated cancer screening program. We have distributed free medicine for OI infections.
- VI. Nutrition gardens (each 20x10 feet) were established with fencing for 5 cancer patients.

7. CABA- (CLHA/ CAA) Program - Children Affected by AIDS

1) **Project objective:** Empowering Children Affected / Infected by HIV/AIDS (CABA) through Linkages, Skill Building and Peer Support services in India.

2) **Activities taken:**

- 1) Nutrition Support to HIV Infected Children
- 2) Education support to HIV Infected Children
- 3) Vocational training to CLHA.
- 4) Digital literacy training program to CLHA.

3) **Achievements:**

- I. Nutrition Support (Peanut , Millets noodles, millet Pongal, Dal, oil, sugar, wheat powder, pulses Soaps, Thoor Dal, Black gram Jiggery, and Peanut chikky) to 41 HIV Infected Children.
- II. Education support for 250 Children (School Bags-250, School Fees-4, Note books, Stationary 250 Children, 2 Children bicycles).
- III. Vocational training was conducted to 38 CLHAs on Candle making, Phenyle making, detergent powder making and Paper plates making
- IV. CLHA/ CAA Vocational training was conducted to 28 CLHA members for 5 days on beautician and electrical courses.
- V. Digital literacy training program was conducted to 38 CLHA members.

8. Help to HIV infected and affected Children & Physically Disabled children

1) **Aim:** LMSSS pays attention to fulfil the basic needs with nutrition support to HIV infected and affected children. Nutrition and Education support is provided through Lodi MSSS to HIV infected and affected orphan, semi orphans and positive children to keep them healthy and active.

2) **Activities taken:**

- i. Nutrition Support
- ii. Education support
- iii. Semi-Christmas celebration
- iv. Distributed Aids and Appliances

3) **Achievements:**

- I. Nutrition Support - (Peanut, Millets noodles, millet pongal, Dal, oil, sugar, wheat powder, pulses Soaps, Thoor Dal, Black gram, Jaggery and Peanut chikky) to 150 HIV Infected Children.
- II. Education support to 4 college students
- III. 12 children were presented with gifts on Children's Day celebration on 14th November, 2023.
- IV. During semi-Christmas celebration, we distributed readymade dresses to 460 children (CLHA/CAA and Differently abled children).
- V. Distributed Aids and Appliances to 20 disabled children at Mahabubabad with support of CHAI & Fernandez foundation.

9. CHILD LINE Program - Warangal Rural District

1) **Project objective:** To reach out to every child in need of care and protection by responding to emergencies on 1098 and Promoting child rights through Awareness about CHILDLINE 1098 amongst every Indian child in 16 mandals of Warangal Rural district.

2) **Activities Implemented:**

- 1) Village level Awareness meetings
- 2) Stake holders training program
- 3) Testing calls & Received Calls
- 4) Child Rescued program
- 5) Operation muskhan program
- 6) Press reporters meeting.
- 7) Volunteers meetings

3) **Achievements:**

- Conducted 207 village level meetings in 207 villages to Anganwadi teachers, Asha workers, youth , stake holders, SHG ,members, Auto drivers, Market vendors, NREGA staff, police and Mandala samakya and educated on 1098 and child protection committee activities
- 2 Stake holders training program was conducted and 75 members participated
- 900 Testing calls & 241 Received Calls on 1098 activities
- 115 Children were rescued through our interventions and stopped 21 Child marriages.
- Provided shelter to 75 children who were in need of care and protection.
- Press reporters meeting conducted to 22 members on child line 1098 activities.
- Volunteers meeting was conducted to 12 volunteers on child line 1098.
- Operation muskhan program and rescued 64 child labour children and provided counselling with child welfare committee and rehabilitated them to their families
- Mandal Advisory Board was conducted in Rayaparthi Mandal in the presence of Mandal revenue officials.

10. CHILD LINE Program - Jayashankar Bhupalapalli District

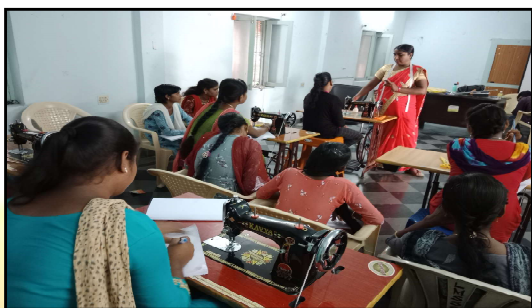

1) **Project objective:** To reach out to every child in need of care and protection by responding to emergencies on 1098 and Promoting child rights through Awareness about CHILDLINE 1098 amongst every Indian child in 11 mandals of Jayashankar Bhupalapalli District.

2) **Activities Implemented:**

- 1) Village level Awareness meetings
- 2) School Level Awareness meetings
- 3) Open House training program
- 4) Door to Door Visits
- 5) Testing calls & Received Calls
- 6) Child Rescue & Operation Muskan program.
- 7) Child Rescued and Produced to CWC Bench.

3) **Achievements:**

- i) Conducted 95 meetings in 95 villages to ASHA workers, Aganwadi teachers, SHGs, local stakeholders, youth and educated on 1098 activities
- ii) Conducted 4 school level meetings in 4 villages and 222 school children participated and were educated on 1098 activities.
- iii) Open House training program was conducted to 160 children on child needs and school facilities.
